The image features several sprigs of lavender flowers in the corners, with some petals scattered across the background. The background is a light, textured surface with a faint, artistic rendering of a coastal town and a large domed building.

16th MEDITERRANEAN CONGRESS OF PHYSICAL AND REHABILITATION MEDICINE

SEPTEMBER, 18.-21. 2025
AMADRIA PARK
ŠIBENIK, CROATIA

PROGRAM

DEAR COLLEAGUES, DEAR FRIENDS,

our voyage started several years ago and we are proud to have been persistent in our intention to sail through the Mediterranean sea to the Adriatic sea and Dalmatian coast. Welcome/Bienvenue to the 16th MFPRM Congress and to the beautiful city of Šibenik in Croatia. Warm hospitality, mediterranean environment and social and professional interaction are at the very heart of this congress. Following success of the previous MFPRM Congress in Rome in 2023, all of us in the MFPRM Executive committee have been challenged to maintain the overall quality of congress and maybe even to set the bar a bit higher. After months of email and zoom meetings and consultations, we are proud of this project and final product we are offering to all of you: twelve scientific session, nine workshops covering variety of PRM areas, interactive panels/roundtables and over three hundred submitted abstracts which were reviewed and prepared for either oral or poster presentations. All of this will enable better dissemination of knowledge and clinical experience among us and will serve as a solid base for future interaction and cooperation between experienced researchers and clinicians.

We are also happy to introduce a novel session dedicated to the young PRM physicans (both residents and specialists) whose agenda is defined by themselves and reflects current state in PRM and potential challenges from their perspective. Equally important, we want to connect PRM specialists and rehabilitation teams professionals of the Mediterranean Countries in Europe, Middle East and Africa in high-quality scientific sessions.

After several hours of continuous listening and/or discussing, we are inviting you for some good social time as the surrounding environment of the conference venue is really beautiful and relaxing – true Mediterranean smells, sounds and beautiful nature.

We are welcoming our PRM colleagues from different countries and various professional backgrounds – academicians, clinicians, researchers, trainees – working in various PRM areas as well as other health professionals included in the rehabilitation team. Šibenik and Croatia are looking forward to welcoming you!

Associate Prof. Frane Grubišić

Vice-President of the MFPRM
President of the 16th MF PRM Congress

Prof. Calogero Foti

President of the MFPRM

COMMITTEES

INTERNATIONAL ORGANIZING COMMITTEE

Calogero Foti,
president of the MF PRM
Frane Grubišić,
president of the 16th MF PRM Congress
Klemen Grabljevec
Milica Lazović
Iuly Treger
Francesco Cirillo
Jorge Lains
Nicolas Christodoulou
Ilker Yagci
Hafid Meliani

Milica Lazović,
past president of the MFPRM
Gulseren Akyuz,
past president of the MFPRM
Renato Nunez
Fatima Midmani
Jorge Lains,
MFPRM Honorary Member
Nicolas Christodoulou,
MFPRM Honorary Member
Levent Özçakar
Vice president ISPRM

SCIENTIFIC COMMITTEE

Calogero Foti,
President of the MFPRM
Frane Grubišić,
President of the 16th MF PRM Congress
Franco Cirillo,
E.M.R.S.S. President and MFPRM
Honorary Member
Mauro Zampolini,
on behalf the UEMS PRM Section
and Board
Klemen Grabljevec,
ESPRM President
Francesca Gimigliano,
ISPRM past president
Tonko Vlak
(Abstract reviewer coordinator,
Editor of Congress abstract book)
Simeon Grazio
(Abstract reviewer coordinator,
Editor of Congress abstract book)

LOCAL ORGANIZING COMMITTEE

Frane Grubišić,
president of the Croatian Society of
Phsyscal and Rehabilitation Medicine,
president of the 16th MF PRM Congress
Vedran Brnić
Ana Aljinović
Dubravka Bobek
Darija Granec
Simeon Grazio
Silvija Mahnik
Valentina Matijević
Saša Moslavac
Nadica Laktašić Žerjavić
Concetta Ljoka
Porin Perić
Katarina Sekelj Kauzlarić
Tea Schnurrer Luke Vrbanić
Adelmo Šegota
Tonko Vlak

PROGRAM

THURSDAY 18TH 2025

Workshops					
	HALL 3		HALL 4		HALL 9
13:00-17:00	Musculoskeletal ultrasound workshop – Ultrasonography of the Shoulder & Knee moderators/instructors: Prof. Levent Özçakar (Turkey), Prof. Porin Perić (Croatia)	13:00-17:00	Ultrasound guided botulinum toxin injections in the treatment of upper and lower limb spasticity moderators: Klemen Grabljevec (Slovenia) Alessio Baricich (Italy)	14:00-16:00	Mesotherapy in rehabilitation medicine, Calogero Foti (Italy) - Director Gianpaolo Ronconi (Italy) - Coordinator Concetta Ljoka (Italy) - Vice-Coordinator Giulia Vita (Italy) - PRM Assistant
17:30-18:30	MFPRM Executive Board meeting				
19:00-20:00	Opening ceremony				
19:30	State of art lecture Giorgio Ferriero (Italy) The Role of Rehabilitation in Promoting Neuroplasticity Post-Stroke				
20:00-20:30	Welcome reception				

FRIDAY 19TH SEPTEMBER 2025

	ŠIBENIK 1		ŠIBENIK 2		ŠIBENIK 3+4
	Interventional ultrasound in PRM		Urology and gynecology/obstetrics rehabilitation		Children rehabilitation
	Session chair and moderator: Levent Ozcakar (Turkey)		Session chair and moderator: Hafid Meliani (Morocco), Žarko Bakran (Croatia)		Session chair and moderator: Dejan Nikolić (Serbia), Valentina Matijević (Croatia)
08:30-10:00	Levent Özçakar (Turkey) US-guided vs. US guides Bayram Kaymak (Turkey) Interventions for spasticity Kamal Mezian (Turkey) Pain interventions Martin Lamontagne (Canada) Ultrasound guided Platelet Rich Plasma Injection: How to proceed to optimize the result?	08:30 -10:00	Helena Kolar Mitrović (Croatia) Pelvic rehabilitation after radical prostatectomy Hafid Meliani (Morocco) Clean-self catheterisation in neurogenic bladder: update and role of general practitioner Žarko Bakran (Croatia) EMG analysis of anal and urethral sphincters Hana Skala Kavanagh (Croatia) Diastasis Rectus Abdominis Rehabilitation in the postpartum period	08:30 -10:00	Dejan Nikolić (Serbia) Electrodiagnostic principles in pediatric peripheral nerve lesions Valentina Matijević (Croatia) Children with impaired coordination Minna Stahl (Finland) Management of primary pain syndromes in children and adolescents Filomeni Armakola (Greece) Pediatric Cancer Survivors and Life Long Rehabilitation Care
10:00-10:30	Coffee break				

10:30-11:30	ORAL ABSTRACT PRESENTATION Rudolf Ditmar (Czech Republic) Introducing a novel approach: ultrasound-guided hydrodissection of flexor tendon adhesions combined with individual kinesiotherapy to promote post-operative and post-injury rehabilitation, Rudolf Ditmar (Czech Republic) Percutaneous ultrasound-guided needle tenotomy of the lateral epicondylitis with humeroradial joint infiltration of platelet-rich plasma Miguel Guimarães (Portugal) Safety and Efficacy of Ultrasound and Fluoroscopy-Guided Radiofrequency Thermal Ablation in Osteoarthritis Hip Pain Šime Mijić (Croatia) Nailfold Capillaroscopy in Complex Regional Pain Syndrome: The Role of the Physical and Rehabilitation Medicine Specialist in Microcirculatory Morphological Evaluation	10:30-11:30	ORAL ABSTRACT PRESENTATION Jihad El Achkoura (Morocco) Urinary and Ano-Rectal Sphincter Dysfunction in Chronic Pelvic Pain Syndrome: A Cross-Sectional Study in a Physical Medicine and Rehabilitation Center Nada Kyal (Morocco) Urodynamic assessment of lower urinary tract dysfunction following surgery for posterior urethral valves Nada Kyal (Morocco) Urodynamic evaluation of bladder compliance and detrusor activity following radiotherapy for prostate cancer Mariana Xavier (Portugal) Pelvic Floor Rehabilitation in Urinary Incontinence - Analysis of the First Year of Treatments in a Hospital in the North of Portugal Mouad Yazidi (Morocco) Pelvic floor rehabilitation in female stress urinary incontinence: Results of a protocol combining biofeedback and electrostimulation	10:30 - 11:30	ORAL ABSTRACT PRESENTATION Filomeni Armakola (Greece) Behavioral and Cognitive Disturbances in Children with Posterior Fossa Tumors Post-Surgery: A Descriptive Longitudinal Analysis Katja Groleger Sršen (Slovenia) Beyond Basic Mobility: Comprehensive Assessment of Wheelchair Driving Skills in Children Filip Milanovic (Serbia) Clubfoot - deformity degree and functional outcomes after the treatment Daiva Šatkutė (Lithuania) Physiotherapy effect on the functional status of children with cerebral palsy after selective dorsal rhizotomy surgery Daiva Šatkutė (Lithuania) Associations Between Parental Physical Activity and Children's Motor Development Tatjana Šimunić (Croatia) The influence of the intensity of sensory integration therapy on the outcome measured by the GAS scale
11:30-12:30	Round table – Artificial intelligence in PRM moderator: Mauro Zampolini (Italy)	11:30 -12:30	Cochrane Thematic Group - Rehabilitation, Functioning, and Disability Moderators: Francesca Gimigliano, Frane Grubišić Stefano Negrini: Why the Cochrane Rehabilitation field become the Cochrane Rehabilitation, Functioning and Disability Thematic Group (pre-recorded lecture) Francesca Gimigliano: Cochrane Rehabilitation's Functioning and Disability Thematic Group: Meeting the Urgent Need for Evidence Tina Poklepović: Clinical Practice Guidelines - shaping the future of evidence based decision making	11:30 -12:30	Poster viewing
12:30-13:30	Lunch				
	Neurorehabilitation		Cardiopulmonary rehabilitation		Pain treatman and rehabilitation
			Session chairs and moderators: Milica Lazović (Serbia), Dubravka Bobek (Croatia)		Session chairs and moderators: Roberto Casale (Italy), Ahmed Amine El Oumri (Marocco)
13:30-14:15	BTL symposium Anamarija Soldo Koruga (Croatia) Complex evidence based algorithm of neurological patients care (20 min.) Anđela Grgić (Croatia) Multi stage approach to robotic neurorehabilitation of stroke patients (25 min.)	13:30 - 15:00	Catarina Aguiar Branco (Portugal) Actual Trends in Cardiac Rehabilitation: From Hospital Care to Primary Care Milica Lazovic (Serbia) Modalities of Exercise Training in patients with Coronary Artery Disease or Heart Failure Marta Supervía (Spain) Inspiratory muscle training in Cardiac Rehabilitation Dubravka Bobek (Croatia) Clinical significance and usefulness of pulmonary rehabilitation in patients with rheumatic diseases	13:30-15:00	Frane Grubišić (Croatia) Fibromyalgia in spondyloarthritis: overlapping symptom or overdiagnosed condition? Ahmed Amine El Oumri (Marocco) Interventional rehabilitation for neuropathic pain Roberto Casale (Italy) Nociplastic pain: cave canem!

14:15-15:45	<p>Session chairs and moderators: Klemen Grabljevec (Slovenia), Tea Schnurrer Luke Vrbanić (Croatia)</p> <p>Sara Laxe (Spain) Shaping Futures: Prognosis, Recovery, and the Vital Role of Rehabilitation in Post-Cardiac Arrest Care</p> <p>Evrin Karadag-Saygi (Turkey) Physical activity in stroke patients: barriers and facilitators</p> <p>Eleni Moumtzi-Nakka (Greece) r-TMS in the future of SCI recovery enhancement</p> <p>Klemen Grabljevec (Slovenia) Why should spasticity be in a focus of PRM doctors?</p>	15:15-16:15	<p>Mingrong Huang (China) Application of a pulmonary rehabilitation exercise program based on IMB model in patients with severe chronic obstructive pulmonary disease</p> <p>Smiljana Šupak (Croatia) A comparative isokinetic evaluation post HIIT training: STEMI patients vs. healthy counterparts</p> <p>Vitalija Stonkuvienė (Lithuania) Additional exercises in cardiac rehabilitation improve gait parameters in frail patients after open-heart surgery</p> <p>Marta Supervia Pola (Spain) Prevalence of undiagnosed OSA in patients starting the Cardiac RHB program</p> <p>Marta Supervia Pola (Spain) Study on first aid and cardiopulmonary resuscitation (cpr) knowledge among therapists in the rehabilitation GYM</p>	15:00-15:20	
15:30-15:45	Coffee break				
15:45-16:05	<p>BURGEON symposium</p> <p>Functional Aesthetic Rehabilitation. Restoring Symmetry and Identity. The Renova Touch</p> <p>Athanasios Tsigoulis, Markos Sgantzos</p>				
16:05-17:30	<p>ORAL ABSTRACT PRESENTATION</p> <p>Hasnaa Boutalia (Morocco) Four-year follow-up on post-stroke fatigue and workforce reintegration</p> <p>Mohammad Etoom (Jordan) Post stroke fatigue: Analysis of subtypes and associated factors</p> <p>Cvetanka Gjerakaroska Savevska (Republic of North Macedonia) Does radial extracorporeal shock wave therapy reduces post stroke hand spasticity?</p> <p>Abdelhakim Kabil (Morocco) Rehabilitation outcomes of post-stroke facial palsy in fifteen patients : a prospective study</p> <p>Jiae Kim Is High-Intensity Interval Training feasible with Robot Assisted Gait Therapy?: A Randomized Controlled Trial</p> <p>Nataša Kos (Slovenia) Can Vestibular Rehabilitation Therapy be a vital support for patients transitioning home after undergoing acoustic neuroma surgery?</p> <p>Olivera Pilipovic - Spasojevic (Bosnia and Herzegovina) The effect of the treadmill program on the spatio-temporal gait parameters of patients after stroke</p> <p>Maria Julieta Russo (Argentina) Evaluating NeuRACI: Accuracy of a Neurorehabilitation Complexity and Resource Allocation Index</p> <p>El Beloui Ryme (Morocco) Sexual Dysfunction in Multiple Sclerosis: A Silent Struggle for Moroccan Patients</p> <p>Catarina Vasconcelos Fonseca (Portugal) Assessing Driving Competence in Spinal Cord Injury Patients: A Retrospective Study</p> <p>Jasna Vešligaj Damiš (Slovenia) Empowering Individuals Through Personal Goal Setting in Long-Term Brain Injury Rehabilitation: A Taxonomic Analysis and Its Impact on Quality of Life</p>			15:20-15:40	<p>ORAL ABSTRACT PRESENTATION</p> <p>Elizabeth Felix (United States) Changes in supraspinatus tendon pathology and shoulder pain after traumatic spinal cord injury</p> <p>Marija Gocevska (Republic of North Macedonia) Non-Invasive Modalities for Chronic Low Back Pain: HILT vs. Ultrasound Therapy Outcomes</p> <p>Arpine Muradyan (Armenia) Evaluating physical therapy efficacy in managing pregnancy-related low back pain</p> <p>Maria Chiara Parisi (Italy) The functional evaluation of the lower limbs in obese subjects: study experimental for the prevention of trauma</p>
17:45-19:00	General Assembly MFPRM				

SATURDAY 20TH SEPTEMBER 2025

	ŠIBENIK 9
09:00-10:30	MFPRM Executive Board meeting

	ŠIBENIK 1		ŠIBENIK 2		ŠIBENIK 3+4
	Sport medicine		Nutritional support in PRM setting		Postoperative rehabilitation
	Session chair and moderators: Jean Francois Kaux (Belgium), Andrea Demeco (Italy)		Session chair and moderators: Maja Berković Cigrovski (Croatia)		Session chair and moderators: Ana Aljinović (Croatia), Iuly Treger (Israel)
08:30-10:00	Alan Ivković (Croatia) Knee articular cartilage repair and restoration techniques in athletes Andrea Demeco (Italy) Prevention of overuse injuries through the early detection of kinematic alteration: the role of movement analysis Jean Francois Kaux (Belgium) PRP Therapy: Contraindications and Post-Injection Rehabilitation Strategies Nicola Marotta (Italy) New advancement in physical agent modalities in the management of sport injury	08:30 -10:00	Petra Kovačević Totić (Croatia) Rehabilitation and nutritional intervention in patients on chronic haemodialysis Maja Berković Cigrovski (Croatia) Endocrinology consult in the perioperative rehabilitation period Filip Đerke (Croatia) NeuroNutrition provides additional strength in neurorehabilitation Mislav Radić (Croatia) Mediterranean diet and quality of life in patients with rheumatoid arthritis	08:30-10:30	Henk Stam (Netherlands) Acute Medical Rehabilitation Iuly Treger (Israel) Early Rehabilitation after War Trauma and Operation. Israeli experience Silvija Mahnik (Croatia) Rehabilitation and healing process after LCA reconstruction Lena Lutsky (Israel) Principles and practice of presurgical rehabilitation in the community
10:00-10:30	Sun Wave Pharma symposium Silvija Mahnik, PRM specialist, PhD Department of Orthopedic Surgery, University Hospital Center Zagreb, Zagreb, Croatia Osteoarthritis: Burden, Management, and the Role of Nutritional Support				
10:30 - 11:00	Coffee break				
11:00-12:00	ORAL ABSTRACT PRESENTATION Hasnaa Boutalja (Morocco) Electromyographic assessment of professional goalkeepers experiencing shoulder pain during a functional activity Douae El Ouazzani (Morocco) The Untapped Potential: Adapted Physical Activity and Functional Improvement in Adolescent Idiopathic Scoliosis, Silvija Mahnik (Croatia) Using a combination of three clinical tests for detecting meniscal tears increases the accuracy of the clinical examination Maria Chiara Parisi (Italy) Effects of a specific Proprioceptive Training on injury prevention in basketball players Marcela Romić (Croatia) The role of proprioceptive training in reducing lumbar spine problems among elite figure skaters	11:00-12:00		11:00-12:00	ORAL ABSTRACT PRESENTATION Ileana Monica Borda (Romania) Knee muscles power and functional performance in patients with knee arthroplasty João Diniz (Portugal) Lower Limb Amputations in a Northern Portuguese Health Unit: A Retrospective Study Douae El Ouazzani (Morocco) Functional Rehabilitation After Total Knee Arthroplasty in Patients With Rheumatoid Arthritis: Specific Challenges and Personalized Strategies Michael Glukhoded (Israel) Benefits of Early Proactive PRM Evaluation in Acute Care Settings for Patients With Multi-Trauma Injury Katarina Marija Kobeščak (Croatia) Rehabilitation of a patient with femoral nerve palsy after bilateral total hip arthroplasty via direct anterior approach: a case report Ivana Orbanić Znika (Croatia) Complex rehabilitation after multiple amputations
11:30 -12:30	Poster viewing				
12:30 - 13:30	Lunch				

	Musculoskeletal rehabilitation		Cancer rehabilitation		Future of rehabilitation - precision medicine
	Session chair and moderators: Simeon Grazio (Croatia), Ilker Yagci (Turkey), Nadica Laktašić Žerjavić (Croatia)		Session chair and moderators: Ana Poljičanin (Croatia), Calogiero Foti (Italy)		Session chair and moderators:
13:30- 15:00	Simeon Grazio (Croatia) Diagnostic challenges in inflammatory back pain /axial spondyloarthritis Ilker Yagci (Turkey) Guidelines for the management and the role of PRM specialist in spondyloarthritis Frane Grubišić (Croatia) Effect of exercise on obesity and cardiovascular comorbidities in patients with rheumatoid arthritis and spondyloarthritis Francesca Gimigliano (Italy) Nonpharmacological treatment including exercise in the prevention and treatment of osteoporosis	13:30 - 15:00	Vincenzo Ricci (Italy) Ultrasound assessment of lymphedema (hybrid) Gulseren Akyuz (Turkey) Cancer and Osteoporosis: How important is it? Calogiero Foti et al. (Italy) Sport Reconditioning and Cancer Ana Poljičanin (Croatia) Cancer Prehabilitation as Part of Cancer Care Continuum	13:30-15:00	João Pinheiro, Jorge Lains (Portugal) Background/Precision Rehabilitation Jorge Lains (Portugal) The future of rehabilitation medicine – precision rehabilitation: psychosocial and environmental factors Joao Branco (Portugal) Biomarkers and Genetics in Personalizing Rehabilitation Catarina Branco (Porugal) Mobile Applications / Apps and Sensor Technologies João Pinheiro (Portugal) Smart Rehab Through Big Data João Pinheiro, Jorge Lains (Portugal) Discussion and conclusion
		15:00-16:00	ORAL ABSTRACT PRESENTATION Hasnaa Boutalja (Morocco) Is limb-sparing surgery more effective than amputation in enhancing patients’ quality of life and functional capacity? Ivana Klarić-Kukuz (Croatia) Beyond the Swelling: Exploring Neuropathic Pain in Breast Cancer Survivors with Lymphedema Marco Monticone (France) Multimodal rehabilitation treatments for the management of temporomandibular disorders in head and neck cancer patients: a systematic review		
15:15-16:15	Coffee break				Moderator: Nicolas Christodoulou (Cyprus)
16:15 - 17:15	ORAL ABSTRACT PRESENTATION Abdelkarim Al-Jabiri (Croatia) The effect of the Mediterranean diet on diasease activity, function and fatigue in patients with rheumatoid arthritis Carla Ćorić (Austria) Effects of a multimodal therapy program (MTP) including radonthermal therapy (RTT) on BASDAI scores and pain in inpatients with ankylosing spondylitis (AS) Emilija Dubljanin Raspopović (Serbia) Predictors of functional recovery and mortality after hip fracture- do we recognize them in daily clinical work? Thomas Kienbacher (Austria) Chronification risk and bodily functional measures in low back pain			16:00-18:00	Harmonization of PRM services in Mediterranean region

	ŠIBENIK 1		ŠIBENIK 2		ŠIBENIK 3+4
16:30 - 17:30	Interpretation and discussion of case-based EMNG reports moderator: Gulseren Akyuz (Turkey), Ozge Kenis-Coskun (Turkey), Evrim Karadag-Saygi (Turkey)	16:30 - 17:30	Restoring Intimacy: Steps to Sexual Rehabilitation moderator: Prof. Rafi Heruti, Specialist in PRM, certified sexologist, MD, Master in PRM, FECSM (Israel)	16:30 -17:30	Communication and Leadership in a Rehab Team moderator: Jorge Lains (Portugal)

SUNDAY 21ST SEPTEMBER 2025

	ŠIBENIK 1	ŠIBENIK 2
	<p>Young PRM in Mediterranean area: pitfalls and perspective</p> <p>Moderators: Valentina Delimar (Croatia), Concetta Ljoka (Italy)</p> <p>Ivan Remaj (Croatia) Fellowship programme proposition: connecting young professionals for innovations in PRM</p> <p>Giulia Vita (Italy) Tele-rehabilitation in physical medicine and rehabilitation</p> <p>Carla Rauco (Italy) Artificial intelligence and future applications in the rehabilitation pathway</p> <p>Vladimir Belkin Robotics, exoskeletons and virtual reality in rehabilitation</p>	<p>ORAL ABSTRACT PRESENTATION</p> <p>Moderators: Jelena Marunica Karšaj (Croatia), Adelmo Šegota (Croatia)</p> <p>Nada Kyal (Morocco) Epidemiology and management of functional urinary disorders in children</p> <p>Maria Chiara Maccarone (Italy) Artificial intelligence for early risk stratification and treatment optimization in adolescent idiopathic scoliosis: preliminary results from a clinical implementation</p> <p>Marija Markovski (Republic of North Macedonia) Geriatric rehabilitation against frailty and sarcopenia</p> <p>Sofia Moreira (Portugal) Femoral Neuropathy Secondary to Iliopsoas Haematoma: A Case Series and Rehabilitation Outcomes</p> <p>Maria Chiara Parisi (Italy) The functional evaluation of the lower limbs in obese subjects: study experimental for the prevention of trauma</p> <p>Giulia Vita (Italy) Fenice Protocol in Breast Cancer Rehabilitation: A case series</p>
09:30-11:00		09:30-11:00
11:00-11:30	<p>Closing ceremony Departures of delegates</p>	

POSTERS

CANCER REHABILITATION

Prehabilitation in Cancer Patients: Current Evidence on Functional and Psychological Outcomes **Ines Bernardo**

A Tangled Web: Axillary Web Syndrome and Extensor Pollicis Longus Tendon Injury - A Rare Dual Complication Challenging Recovery **Carolina Dias da Silva**

Usefulness of the SINS score in the physical therapy management of an oncology patient: a clinical case report. **Valerio Massimo Magro**

Risk Factor Identification as a Key Strategy in Lymphedema Prevention and Treatment in Patients After Cancer Treatment **Ivan Vlák**

Hand myxofibrosarcoma and the importance of thumb opposition **Maria Joao Sousa**

Mediterranean by Location, Not by Diet: Poor Adherence to the Mediterranean Diet Among Breast Cancer Survivors in a Mediterranean Region **Marta Valenta**

Analyzing uroflowmetry outcomes for patient after radiation therapy for prostate cancer **Mouad Yazidi**

CARDIOPULMONARY REHABILITATION

Unmasking respiratory muscle weakness during effort in myotonic dystrophy type 1 **Jan Akseñtijević**

The role of cardiopulmonary exercise testing in osteoarthritis rehabilitation: Emphasis on body mass reduction **Katarina Doko Šarić**

Comprehensive nursing of ECMO assisted flow dynamics monitoring under evidence-based nursing practice **Lu Hong**

How to individualize aerobic training in stroke patients? **Matea Stiperski Matoc**

Assessing awareness and management of patients with obesity among Physical Medicine and Rehabilitation Physicians in Spain: A Pioneer Survey Study **Marta Supervia Pola**

Study of the prevalence and changes in cognitive impairments in patients enrolled in a cardiac rehabilitation program **Marta Supervia Pola**

The role of nutrition and dietary supplements in the prevention and treatment of malnutrition in patients with COPD **Sanja Vujević**

Clinical Effects of an Integrative Chinese-Western Medicine Approach Based on the "Lung-Kidney Co-Treatment" Principle on Inflammatory Status and Pulmonary Function Recovery in Patients With AECOPD **Zhensheng Xie**

CHILDREN REHABILITATION

Case report of a child with Poirier-Bienvenu neurodevelopmental syndrome **Abdelkarim Al-Jabiri**

Optimizing Upper Limb Function in Cerebral Palsy: A Review of Evidence on Constraint-Induced Movement Therapy **Inês Bernardo**

Dystrophic Epidermolysis Bullosa in Algeria: A Case Report and Rehabilitation Approach **Abdelghani Miliani**

Could the presence of cardiac arrhythmia hinder proper habilitation? **Jelena Marunica Karšaj**

Idiopathic toe walking in children – Guided self-rehabilitation as a new therapeutic approach, case study **Rudolf Ditmar**

Pectus Excavatum and other thoracic deformities: What to do? **Fábio Fernandes Pinho**

Recognizing Early Signs of Fibrodysplasia Ossificans Progressiva in Infancy: A Case Report **Ana Isabel Romeiro**

Spasmus Nutans and Torticollis: The Role of Multidisciplinary Evaluation in Early Childhood Diagnosis and Management **Ana Isabel Romeiro**

Assessment of Posterior Tibial Nerve Stimulation Effectiveness in Pediatric Overactive Bladder: A Moroccan Study **El Beloui Ryme**

Efficacy of Ankle-Foot Orthoses on Gait in Children with Cerebral Palsy **El Beloui Ryme**

Assistive Technology and Perceived Safety and Autonomy in Pediatric Neurological Rehabilitation: A Descriptive Study **PINELOPI VLOTINOU**

Williams-Beuren syndrome shrouded in neurodevelopmental delay, severe scoliosis, and „cocktail party personality“ **Jelena Marunica Karšaj**

NEUROREHABILITATION

Nutritional Polyneuropathy Following Bariatric Surgery: A complication that can be prevented **Ali Al-Fadhly**

Elsberg Syndrome by Herpes Simplex 1 Reactivation: Case Report **Ines Bernardo**

Medical Complications during acute inpatient Traumatic Brain Injury rehabilitation - Croatian example **Valentina Blažinčić**

Inpatient Rehabilitation of Traumatic Brain Injury patients in Croatia-Is time relevant? **Valentina Blažinčić**

The impact of temperature sensitivity on the stay of multiple sclerosis patients in a rehabilitation institution during a year **Lana Bobic Lucic**

Is there an impact of resistance training on the physical condition of individuals with multiple sclerosis ? **Hasnaa Boutalja**

Enhancing Postural Control by Multicomponent Balance Exercises and Functional Somatosensory Foot Mobilization in Patients after Brain Tumor Surgery **Maruša Brcar**

Spinal Muscular Atrophy Type 4: A Case Report **Dora Dujmović**

Differentiating spasticity-related pain - A case report of Hereditary Spastic Paraplegia **Manuel Fernandes**

Modulation of Motor and Cerebellar Function Using TMS and TsMS in Spinocerebellar Ataxia Type 3: a case-based insight **Ana Margarida Fernandes**

Segmental Zoster Paresis Presenting with Foot Drop: A Rare Complication of Herpes Zoster **Ayşegül Garip Honamlioğlu**

Rehabilitation of a patient with paraplegia after spinal cord injury-case report **Daniela Gechevska**

Rehabilitation Management of Intensive Care Unit-acquired Weakness **Milkica Glogovac Kosanović**

Strachan-Scott Syndrome in a Modern Context: A Case Report and Rehabilitation Perspective **Kaung Zaw Hein**

Balance Impairment and Quality of Life in Multiple Sclerosis Patients **Tadeja Hernja Rumpf**

Tarlov's cyst, cause of vesico-sphincter disorders : interest of urodynamic exploration : about two cases **Abdelhakim Kabil**

Management of lower urinary tract (lut) of stroke patients in the acute and subacute phase. **Avgoustinos Kampas**

Effects of Repetitive Transcranial Magnetic Stimulation on Multiple Sclerosis Fatigue, Sensory Disturbances, and Optic Neuritis: A Case Report **Hana Khalidi**

The use of point-of-care kinematic analysis in the treatment of focal spasticity **Marika Kolářová**

Incidence and risk factors of pressure ulcers in patients with spinal cord injury in subacute rehabilitation **Emilija Reimane**

Physical therapy and rehabilitation of a patient with Hereditary Sensorimotor Polyneuropathy Charcot-Marie-Tooth Type 1A - Case Report **Ana Krsteska**

Relationship between Peak Cough Flow and Immediate Effect of One-way Speaking Valve Placement on Dysphagia **Jong Hwa Lee**

Early VFSS in Acute Stroke Patients with Dysphagia **Jong Hwa Lee**

Rehabilitation of Functional Motor Disorders: A Literature Review **Diogo Marques**

Brachial plexus injury outcome following rehabilitation and neurolysis **Jelena Marunica Karšaj**

Iatrogenic Injury in Haemorrhagic Stroke – A Rare Complication **Inês Morais**

Chronic Inflammatory Demyelinating Polyneuropathy with atypical presentation – a paraneoplastic syndrome? **Inês Morais**

Bridging Disciplines to Restore Lives: A Case of Interdisciplinary Neuro-Rehabilitation in Hypoxic Brain Injury **Asmaa Mahmoud Moustafa**

Severe Neurological Complications of Chronic Nitrous Oxide Abuse: A Case Series **David Oliveira Cordeiro**

AID2GAIT - Real-time Biofeedback for Monitoring Robotic Assisted Gait Training in Children with Cerebral Palsy: A Preliminary Study **Teresa Paolucci**

Spasticity Predictive Factors of inpatients with Stroke diagnosis during their hospitalization in a Rehabilitation Clinic **Angeliki Paraschou**

Lower urinary tract management protocol of patients with spinal cord injury . The contribution of the nursing staff **Angeliki Paraschou**

A Rare Case of Parsonage-Turner Syndrome Involving Only the Radial Nerve **Carolina Pereira e Carvalho**

Peripheral Facial Palsy and Botulinum Toxin: five years of clinical experience in a hospital-based rehabilitation setting **Ana Isabel Romeiro**

Subacute Combined Degeneration: Functional Outcomes of Two Patients Following Structured, Multistage Rehabilitation	Ana Isabel Romeiro
Clinical identification of patients with covert awareness.	Maria Julieta Russo
Neuroplasticity and Motor Relearning in Rehabilitation Following Nerve Transfer Surgery: A Clinical Case Report	Claudia Sofia Correia
The analgesic effect of electrotherapy in patients with diabetic peripheral neuropathy	Ana Spasovska
Improving balance in diabetic peripheral neuropathy through stabilometric platform rehabilitation – a case report	Diana Maria Stanciu
Balance exercise for patients with Parkinson’s disease	Matea Stiperski Matoc
Interval training in patients with Parkinsons disease	Teodora Talić
The association of brain-derived neurotropic factor Val66Met polymorphism with stroke outcomes: a cross-sectional study	Eduard Tiozzo
A rare case of Botulism After Homemade Sausage Ingestion: Initial Misdiagnosis and Its Long-Term Functional Outcome	Catarina Vasconcelos Fonseca
The Silent Poison: Chronic Mercury Toxicity Masquerading as Neurodegenerative Disease	Ana Vrbanović
A Meta-analysis of the rehabilitation effects of EMGBFT combined with MT on lower limb function and activities of daily living in patients after stroke	顺豪 封
OTHER TOPIC	
Challenges in the Rehabilitation of Spinal Seronegative Rheumatoid Arthritis in non spinal specialist unit: A multidisciplinary Approach	Ali Al-Fadhly
Osteonecrosis of the knee after parenteral corticosteroid application and intra-articular hyaluronic acid injection	Marija Cetinić
Botulinum toxin injection in crocodile tears syndrome: what do we do and what we know?	Manuel Coutinho Fernandes
Gender differences in physical activity habits among physiotherapy students	Dinko Kolarić
Caregiver burden and psychological impact of nocturnal enuresis	Nada Kyal

Balancing Rehabilitation and Autoimmunity: Ulcerative Colitis Exacerbation Linked to NSAID Use in Physiotherapy	Manuel Coutinho Fernandes
Influence of Occupational Gymnastics on Musculoskeletal Symptoms and Quality of Life in Workers at a Foam Company	Sofia Lopez
Spa-based rehabilitation for Long Covid syndrome: a prospective study on functional and psychosocial outcomes in previously hospitalized and non-hospitalized patients	Maria Chiara Maccarone
Association between Beck Depression Inventory-II score and confirmatory answers of the Roland Morris Disability Questionnaire in the sample of chronic non-specific low back pain patients	Jelena Marunica Karšaj
Osteoanabolic treatment after multiple proximal humeral fractures and vertebral fractures in postmenopausal woman	Jelena Marunica Karšaj
Difference in opinions on the need for the mediterranean diet among physiotherapy students based on their place of residence	Dejan Miscevic
Clinical manifestations of rheumatic polymyalgia	Vanesa Muharemović Medenčević
Lower Limb Amputation and Low Back Pain: A 2024 Retrospective Analysis at Centro de Medicina de Reabilitação de Alcoitão	Carolina Pereira e Carvalho
Cricopharyngeal Dysfunction and Upper Esophageal Sphincter Hypertonia: Challenges in Rehabilitation after Traumatic Brain Injury	Ana Isabel Romeiro
Application research of microwave therapy for sudden deafness patients based on 5A nursing mode	Chunmei Song
Soft Channel Minimally Invasive Drainage versus Craniotomy for Intracranial Hematoma Evacuation: A Single-center Comparative Study	Xishuang Su
Case presentation: neurophysiological confirmation of injury to the palmar branches of the ulnar nerve caused by peripheral venous catheter placement	Ioannis - Alexandros Tzanos

Diagnostic approach and management of a patient with nilateral peroneal nerve mononeuropathy on the background of Giant Cell Arteritis	Ioannis - Alexandros Tzanos

Severe proximal axonal injury of the median nerve following traumatic shoulder dislocation: electromyographic investigation	Ioannis - Alexandros Tzanos
Isolated Compression of the Deep Motor Branch of the Ulnar Nerve in a Guitar Player: Electrodiagnostic Insights	Ioannis - Alexandros Tzanos
Case presentation: iatrogenic axonal injury of the sural nerve	Ioannis - Alexandros Tzanos
Optimising Admission Criteria for Inpatient Rehabilitation: Population-based insights from Malta	Christa Vella
PAIN TREATMENT AND REHABILITATION	
From Sensory Disturbance to Diagnosis: A Case of Dejerine-Roussy Syndrome After Thalamic Stroke	Inês Camarinha
Whole Body Cryostimulation in Rehabilitation. What is the evidence ?	Paolo Capodaglio
Hydrodissection of the median nerve after comminuted trauma of the hand using PRP – a case study	Rudolf Ditmar
Machine Based Trunk Muscle Strengthening in the Prevention of Low Back Pain in active nurses aged 45+: Results of a Feasibility Randomized Controlled Study.	Gerold Ebenbichler
Sex-Based Disparities in Postoperative Pain and Rehabilitation Efficiency After Elbow Arthrolysis: Insights from a Moroccan Retrospective Cohort	Douae El Ouazzani
Unmasking a Chronic Low Back Pain: The Hidden Role of Copeman’s Nodules and Targeted Therapy	Ana Margarida Fernandes
Terapeutical benefit of high-intensity laser in patients with knee osteoarthritis - a randomized comparative single-blind study	Valentina Koevska
Efficacy of Low-Frequency Whole-Body Electromyostimulation in Nonspecific Chronic Back Pain: A Systematic Review and Meta-Analysis	Karl Lorenz Konrad
Effect of Extracorporeal Shock Wave Therapy on Different Sites on Plantar Fasciitis	Jong Hwa Lee
The importance of a multidisciplinary approach in managing complex regional pain syndrome (CRPS) – case report	Josip Ljoka
Transcutaneous stimulation in the treatment of overactive bladder about a case	Dalal Radjaa Miloudi

Effects of Eccentric Exercise Accompany with and without Dry Needling in Patients with Chronic Rotator Cuff Tendinopathy	Shiva Pourshafie
Posterior ankle impingement syndrome:effect of conservative management	Mouad Yazidi
Impact of Neurorehabilitation Nursing Combined with Pharmacological Sequential Therapy on Pain Sensitization Status in Patients with Neuropathic Pain: A Randomized Controlled Trial	Mei Yu
Comprehensive treatment approach of neuropathic pain in patient with femoral nerve neurotmesis	Nino Zahirović
POSTOPERATIVE REHABILITATION	
Interdisciplinary treatment of chronic low back pain due to lumbar disc extrusion with radiofrequency ablation of the L5/S1 disc	Nino Zahirović
Efficiency of the robotic system with dynamic body weight support in the rehabilitation of a complicated bimalleolar ankle fracture - case report	Oana Georgiana Cernea
Atypical femur fracture rehabilitation-case report	Aida Čengić
Multidisciplinary Rehabilitation Approach Following Palmar Third-Degree Burn with Syndactyly: A Case Report	Carolina Dias da Silva
The importance of postoperative rehabilitation in functional recovery in total elbow arthroplasty due to supraintercondylar fracture of the humerus	Carlos Gama
Tibia fracture after tibial cortex transverse transport (TTT) surgery: A case report	Jongmoon Kim
Rehabilitation of Achilles Tendon after surgical management with allograft donor tendon transfer – case report	Maja Manoleva
Influence of age and type of operation on outcomes and expectations after orthopedic surgeries	Dejan Miscevic
Superior gluteal nerve injury after total hip arthroplasty, a case report	Vinicius Oliveira
The importance of postoperative rehabilitation in functional recovery in total elbow arthroplasty due to supraintercondylar fracture of the humerus	Ana Isabel Romeiro

MUSCULOSKELETAL REHABILITATION	
Slipping rib syndrome – case report	Diana Balen
Compressive mononeuropathy of ulnar nerve in the cubital canal caused by ossification – a case report	Valentina Blažinčić
From Skin to Nerves: A Review of Sudoscan in Polyneuropathy Detection	Ana Catarina Borges
From Pain to Performance: Shockwave Therapy Resolving Refractory Sesamoiditis in a Professional Dancer	Inês Camarinha
Medial Collateral Ligament Bursitis: A Rare but Treatable Cause of Knee Pain Unmasked by Ultrasound	Inês Camarinha
“When the Body Says ‘Stop!’: Ischiopubic Ramus Stress Fracture in a Runner”	Adriana Correia
Approach to Medial Compartment Knee Pain - A Case Series and Retrospective Study	Adriana Correia
Floating Shoulder with Brachial Plexus Injury: A Complex Case of Neuro-Musculoskeletal Impairment	João Diniz
Recurrent Ankle Sprains in the Visually Impaired: Hidden Impact on Postural Control	Jihad El Achkoura
Clinical and Ultrasonographic Evaluation of High-Power Pain Threshold Ultrasound and Low-Level Laser Therapy in Myofascial Pain Syndrome	Ozlem Erol Durgun
Clinical Outcomes of Platelet-Rich Plasma in Sacroiliac Joint Dysfunction: A Case Series	Sofia Flores
The effects of TECAR therapy on pain, disease activity, range of motion and function in patients with axial spondyloarthritis	Ana Giljanović
The Role of Botulinum Toxin in the Treatment of Notalgia Paresthetica - Case Report and Literature Review	Miguel Guimarães
The use of therapeutic ultrasound for liquifying painful musculoskeletal cyst before ultrasound-guided intervention: a case study	Miroslav Haltmar
Rehabilitation in a patient after knee arthroscopy due to patellar instability - case report	Teodora Jugova
Rehabilitation treatment of flaccid paralytic foot drop following a severe knee sprain : about one case	Abdelhakim KABIL

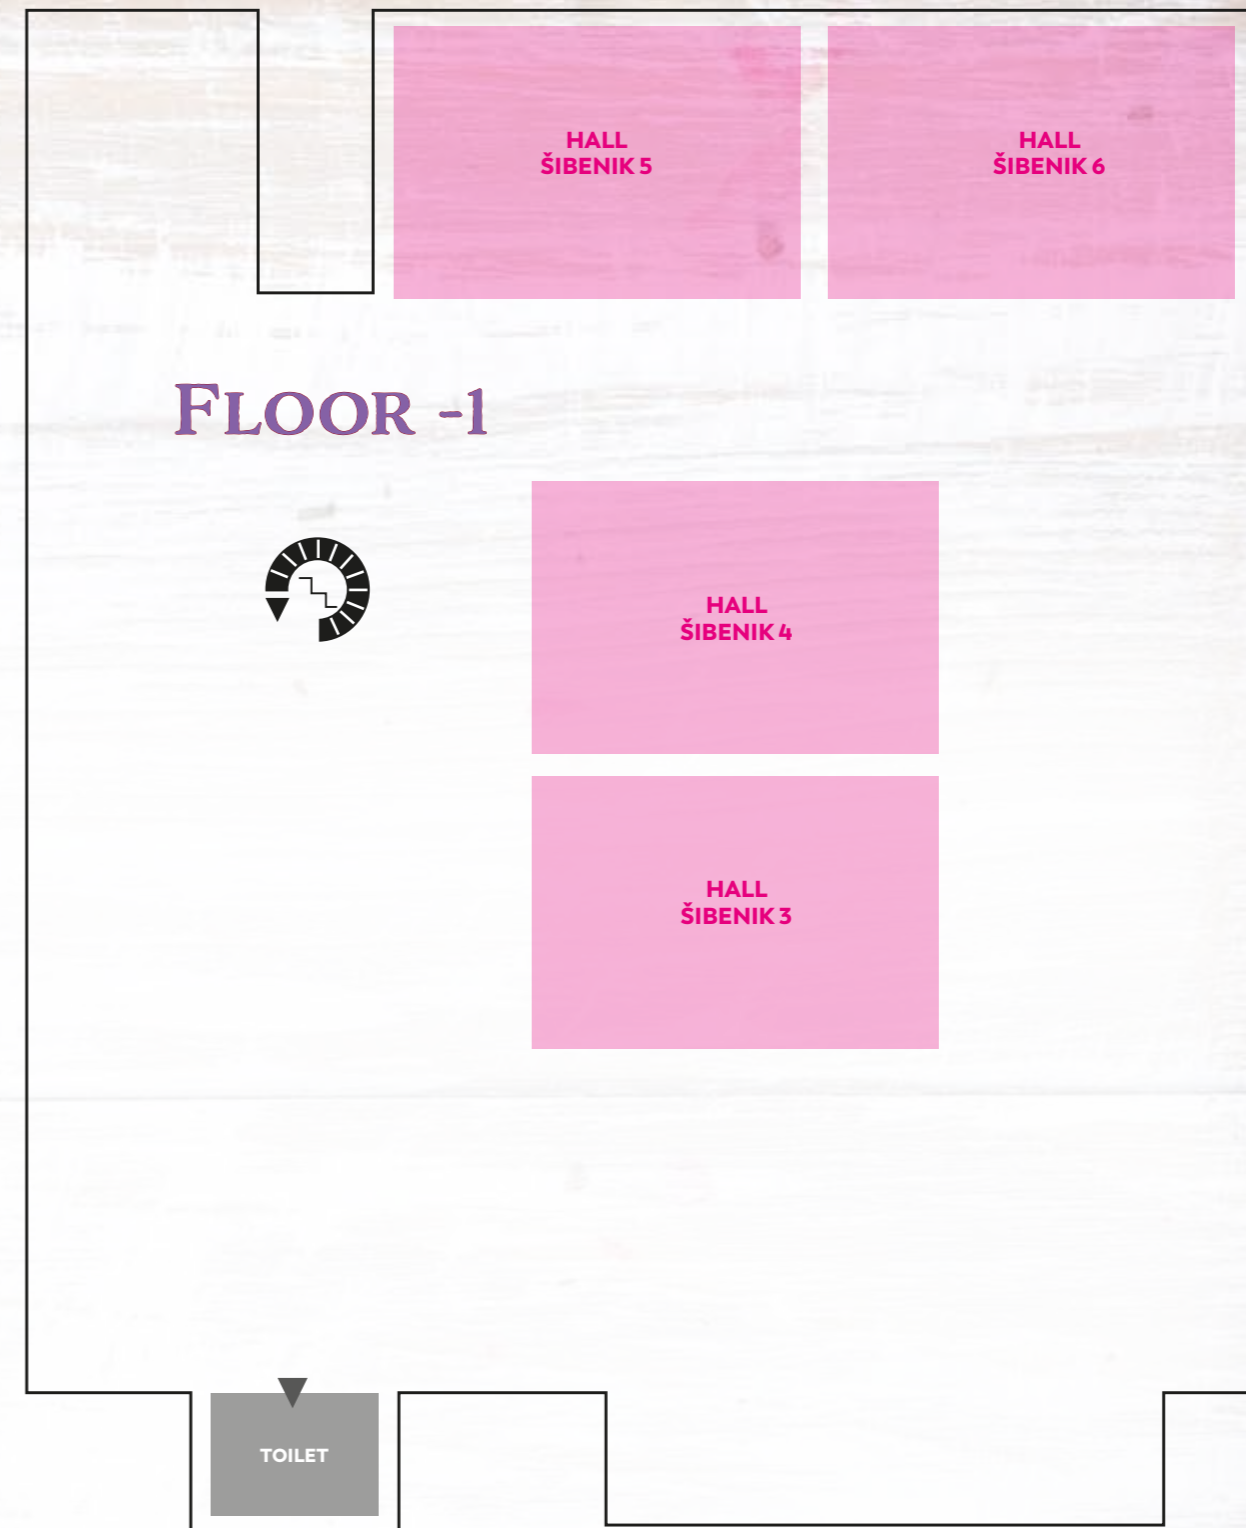

Reducing pain and improving functional ability and quality of life with application of radial extracorporeal shock wave therapy in patients with knee osteoarthritis	Biljana Kalchovska
ASSOCIATION BETWEEN CIGARETTE SMOKING AND FRAGILE HIP FRACTURE IN BOSNIAN POSTMENOPAUSAL WOMEN	Amila Kapetanovic
Clinical Performance of Ultrasound Shearwave Elastography in Carpal Tunnel Syndrome	Jaemin Kim
Balneotherapy Compared to Additional Thermotherapy in the Treatment of Chronic Nonspecific Low Back Pain	Dinko Kolarić
Factors associated with Functional Outcome, Length of Stay, and Discharge Destination in Patients with Lower Limb Loss	Manoa KOUASSI
Heterotopic ossification after cryptococcal meningitis in a dialysis-dependent patient: a case of elbow contracture	Nadica Laktašić Žerjavić
Effects of group-based vs home-based exercise programmes in patients with ankylosing spondylitis	Sofia Lopes
Improvements in gait biomechanics after an aquatic exercise program in a health resort setting: a case study of knee osteoarthritis	Maria Chiara Maccarone
Shoulder tendinopathy induced by statins: systematic review and case report	Nicola Manocchio
The effect of conventional physical therapy in reducing pain in patients with calcific rotator cuff tendinitis of the shoulder	Maja Manoleva
Acute Calcific Tendinitis of the shoulder: when calcium decides to mimic septic arthritis	Diogo Marques
A case of misdiagnosed acute gluteus medius and minimus tears with subsequent complications	Jasmina Milovanović-Arsić
Non-operative treatment as an option in case of complete rupture of the radial collateral ligament of the thumb	Damir Mišura
Effects of intra-articular botulinum toxin injection for the management of osteoarthritic knee pain – a literature review and state of the art	Inês Morais
Efficacy of Transcutaneous Electrical Nerve Stimulation (TENS) in Knee Osteoarthritis: A Meta-Analysis of Randomized Controlled Trials	Andreea-Daniela Pălăștea

Ultrasound-Guided Multimodal Treatment for Patellar Tendinopathy: A Personalized Three-Step Interventional Approach	Arianna Pesaresi
Functional instability in patients affected by collagenopathies with articular hyperlaxity	Daniela Platano
Efficiency of Rehabilitative Interventions Based on Treatment Outcome Measures	Marija Pletikosić
Suicidal Fracture: A Clinical Case of Neurological Injury to the Sacral Plexus	João Rego Diniz
Evaluation of Postural Balance in Patients undergoing Total Hip Arthroplasty using the Timed up and go Test (TUG)	El Beloui Ryme
Isokinetic Evaluation of Shoulder Muscle Deficits in Repetitive Strain Injury and its impact on quality of life and functional performance	El Beloui Ryme
Evaluation of the Satisfaction of Older Adults with a Knee arthroplasty after a Group Exercise Programme	Alexandre Silva
Femoral Fracture during Denosumab therapy in a Patient with Postmenopausal Osteoporosis and Rheumatoid Arthritis: A Case Report	Adelmo Šegota
Intraosseous and Intra-articular Infiltration of Platelet-Rich Plasma for Severe Knee Osteoarthritis: Case Report	Paulo Tomaz
Skin depigmentation and soft tissue atrophy after triamcinolone acetonide injection	Marta Vukorepa
Postural balance assessment Before and after unilateral total hip arthroplasty	MOUAD YAZIDI
Blood Flow Restriction (BFR) Exercise for Sarcopenia: A Case Series	Joon Shik Yoon
Epidemiological survey on the main musculoskeletal disorders related to the use of chord instruments in professional musicians	Marko Zecevic

SPORT MEDICINE	
Olecranon Stress Fractures: Epidemiology, Classification, and Current Management	Ana Catarina Borges
Persistent Shoulder Pain in a Recreational Climber: A Symptomatic Buford Complex	Diana Serra
Ultrasound findings in the diagnosis of exercise-induced rhabdomyolysis - a case report	Maria Joao Sousa

FLOOR PLAN

Dear Colleagues, dear Friends,
The content of the event will be of high quality and will showcase examples of productive collaboration between science and the related industry.
The purpose of the event is to facilitate the establishment of new business contacts, so the program allows sufficient time for interaction with participants.
The audience provides a perfect marketing opportunity to present products and services, strengthen existing relationships, and create new connections and opportunities with potential clients.
Engage directly with experts—more than 500 of them—over three days in one place.
Build awareness of your products and brand.

ESSENTIAL FOR MOVEMENT

The background of the poster is a light-colored wooden plank texture. In the top right corner, there is a large, realistic-looking bouquet of purple lavender flowers. The bottom half of the poster features a painting of a historic city scene, likely Šibenik, Croatia, showing a large cathedral with a prominent dome and several smaller domes, surrounded by old stone buildings with red-tiled roofs. The painting is done in a soft, painterly style with visible brushstrokes.
